

NERUPI Evaluator's Event

This event, designed specifically for NERUPI colleagues with responsibility for evaluation, will focus on two key areas:

- ethical approaches to evaluation and the process of gaining ethical approval
- the changing role of the evaluator

Morning sessions will provide evaluators with valuable practical opportunities to consider ethical approaches to research and evaluation. The afternoon will be an opportunity to discuss organisational approaches to evaluation, explore the implications for evaluators' skills and competences and consider the role of stakeholder mapping in strengthening evaluation. We will also share progress and get your views on the NERUPI/Cosmos online course for practitioners.

- 10.00** **Coffee & Registration**
- 10.20** **Welcome**
Clare Gartland and Annette Hayton, NERUPI
- 10.30** **Ethical issues in WP research and evaluation**
