

# Student Success Snakes + Ladders

## A Staff Development Activity

Student Success Snakes and Ladders is an engaging, interactive activity designed to support university staff to understand and examine the various factors that can affect student retention, progression and success. It encourages critical engagement with real student experiences and promotes action-oriented, solution-focused dialogue.

The activity is created by Dr Lucy Panesar and Dr Yetunde Kolajo using scenarios from [longitudinal research](#) by Dr Alex Hensby, Dr Barbara Adewumi and Dr Yetunde Kolajo which captures the experience of 25 Academic Excellence Scholarship students.

To find out more or book the activity please email:
